

Quota Manager

In this lab based course, the student will gain the necessary theoretical and practical understanding of AppLogic Networks' Quota Manager feature to design and deploy innovative usage-based services in a AppLogic Networks ANI solution. Within the lab portion of the course, the student will learn how to configure the ANI systems to deploy a Quota Manager based solution. The lab exercises will further cement the concepts presented in the lessons and provide the practical experience required to design, configure, verify and monitor a Quota Manager solution.

COURSE OVERVIEW

AppLogic Networks' Quota Manager for ANI course is designed to provide the knowledge and skills related to the deployment of the Quota Manager feature in an ANI deployment enabling deployment of innovative usage-based services.

Modality	Hands-on Labs?	Intended Audience / Roles	Duration (Instructor-Led)	Prerequisites
Onsite Exclusive (Instructor-Led)	Yes	<ul style="list-style-type: none"> Use Case Deployment Engineer 	Two Days	<ul style="list-style-type: none"> Solution Essentials Advanced SandScript for Maestro Policy Engine
Self-Paced eLearning		<ul style="list-style-type: none"> Field Engineer 		

Course Content

- Quota Manager Overview
 - Configuring Quota Manager on the Maestro Policy Engine
 - Configuring ActiveLogic rulesets for Quota Manager
 - Design, configuration and monitoring of Recurring and non-recurring quota wheels
 - Rolling quota wheels
 - Session-Time based quota wheels
 - SandScript for Quota Manager
 - Creating Quota Manager Usage Date Records
- Also Consider:**
- Solution Essentials (Prerequisite for this course)
 - Advanced SandScript for Maestro Policy Engine (Prerequisite for this course)
 - Installing & Configuring
 - Troubleshooting

ABOUT APPLOGIC NETWORKS

AppLogic Networks' cloud-based App QoE portfolio helps customers deliver high quality, optimized experiences to consumers and enterprises. Customers use our solutions to analyze, optimize, and monetize application experiences using contextual machine learning-based insights and real-time actions. Market-leading classification of more than 95% of traffic across mobile and fixed networks by user, application, device, and location creates uniquely rich, real-time data that significantly enhances interactions between users and applications and drives revenues.
