- (h) Sandvine will record and track reported issues regarding the Hardware and Software, in a manner consistent with Sandvine’s then-current practices.
- (i) Sandvine will address errors in unaltered versions of the Supported Release based on the following severity definitions and target times:

Severity Definitions

Severity	Definitions
Severity 1 - Critical	Total or substantial subscriber or End User critical business impact due to Hardware and/or Software functionality being inoperative.
Severity 2 - Major	A high subscriber or End User major business impact due to Hardware and/or Software functionality being degraded.
Severity 3 - Minor	A low subscriber or End User minor business impact due to Hardware and/or Software performance degradation.
Severity 4 - Low	No business impact. The issue consists of "how-to" questions including issues related to one or multiple modules, installation and configuration inquiries, and/or documentation questions.
Proactive	End User is doing work on Hardware and/or Software and should alert Sandvine of the activity at minimum 48 hours prior with a method of procedure included. This is so that Sandvine has time to review and understand the changes in the event that the End User runs into any issues and would require support.

Target Times

The response targets in the table below are for Supported Releases only. Support on unsupported releases will be limited to reasonable efforts.

Service Type	Severity 1	Severity 2	Severity 3	Severity 4
<u>First Response</u> Time for Sandvine engineer to pick-up and start working case.	30 mins	30 mins	30 mins	30 mins
<u>Restore</u> Typically provide a work around or a patch for the issue or clearing of the problem.	4 hours	12 hours	N/A	N/A
<u>Resolve</u> Typically provide a Supported Release.	90 days	90 days	90 days	90 days

Notes:

1. Sandvine will continuously work with End User in a Severity 1 situation until a work around or a patch for the issue is provided or Sandvine clears the problem. For Severity 1 issues: a Root Cause Analysis (RCA) document will be created upon request only once the cause has been identified and then Sandvine has five (5) Business Days to provide the completed RCA document. If a report is required prior to the RCA due to the cause not yet determined by Sandvine, then an Incident Report can be created from the time of that request and provided in three (3) Business Days.
2. If the 12-hour restore period is extended in a Severity 2 situation, Sandvine will use reasonable efforts to work with End User until a work around or a patch for the issue is provided or Sandvine clears the problem.
3. Subject to Note 4 below, Sandvine typically releases an updated Supported Release that resolves the Software issue within ninety (90) days of a Severity 1, 2, 3, or 4 issue.
4. Sandvine has no obligation to correct any issue in any version of the Supported Release that has been modified by End User or any third party, or to correct defects or errors in the Software that only minimally reduce the efficiency, operation, or ease of use of the Software.

2. SOFTWARE RELEASES

Sandvine will publish the availability of each Supported Release when generally available on the Portal. End Users should install the Supported Release on any device for which End User is licensed to use the Software.

Installation of a Maintenance Release does not extend the lifetime of the related LTS Release under Sandvine's end of life policy. Sandvine will include the latest defect fixes with the latest LTS Release. For the End User to receive the expected level of Support and Maintenance Services, the End User must apply the latest Maintenance Releases to the Supported Release.

Sandvine will also announce the last time buy dates to permit End User to purchase licenses to the Software that is subject to the last time buy announcement. After the last time buy date passes, Sandvine: (a) may make available Maintenance Releases; (b) will make available signature updates to identify Internet traffic for such Supported Release as a subscription service subject to separate fees; and (c) advises the traffic classification may degrade for some applications after the last time buy date and notes that the ability to maintain similar levels of traffic identification, classification and byte count accuracy may be affected due to unforeseen changes in the internet post last time buy date.

Sandvine will provide regular updates for Lists and Signature Updates based on specific requirements for each List or Signature Update. Sandvine reserves the right not to renew the subscription, or the Support and Maintenance Services, for List and Signature Updates at its sole discretion.

Sandvine will address errors in unaltered versions of the Supported Release based on the Severity Definitions and Target Times set out above.

3. SOFTWARE MAINTENANCE SERVICES

3.1 If Software is licensed by the End User for a fixed term period and the End User does not: (a) purchase Support and Maintenance Services for the Software during that fixed term period, or (b) renew the Support and Maintenance Services agreement for the Software during that fixed term period, the End User shall be entitled to continue to use the last installed version of the Software only, and Sandvine shall have no obligation to provide any Support and Maintenance Services, assistance, support, maintenance, upgrades or updates to the End User for that Software.

3.2 Unless otherwise required by Sandvine, where Software is licensed perpetually by the End User and the End User:

The End User may choose to purchase Support and Maintenance Services for the installed Release version of the licensed Software up until Sandvine declares the end of support for the installed version of the licensed Software in order to receive Support and Maintenance Services for the Software, however the End User will not be entitled to any new Releases. After the expiry of any Support and Maintenance Services agreement for the installed Release version of the licensed Software, the End User shall be entitled to continue to use the last installed Release version of the licensed Software only, and Sandvine shall have no obligation to provide any Support and Maintenance Services, assistance, support, maintenance, upgrades or updates to the End User for that Software.

Sandvine shall have no obligation under this Agreement, the End User License Agreement, these Support Terms, the Agreement or any other agreement or documentation (including under any Support and Maintenance Services agreement) to directly or indirectly provide an End User with any assistance, support, maintenance, upgrades or updates to any Software, or any part thereof, if the End User fails to pay all fees for the Products or any Support and Maintenance Services or fails to comply with any part of the End User License Agreement (including but not limited to: (1) the license conditions; and (ii) requirements to comply with laws, export controls, government restrictions, and Supplier's code of conduct, in the End User License Agreement), the Agreement or these Support Terms.

4. SOFTWARE END OF LIFE

End User agrees to only use a Supported Release of the Software. Once two (2) years passes from the General Availability of a Supported Release of the Software, the Supported Release will automatically be end of life software, unless published otherwise by Sandvine located on the Portal from the Documentation Library which includes the most current Sandvine Product Lifecycle – Software End of Life Record information.

Notwithstanding any Support and Maintenance Services agreements that may be in place, and provided that the End User has purchased Support and Maintenance Services for the Software for the continuous period from its acquisition of the first license to the Software through to the date of discontinuation, Sandvine will continue to make available Support and Maintenance Services in respect of a discontinued Supported Release of Software for a period of two (2) years from the date of General Availability and thereafter Sandvine's only Support and Maintenance Services obligations on end of life Software is to provide reasonable efforts on Severity 1 – Critical system restoration issues only provided that: (i) the End User makes a written request to Sandvine and (ii) Sandvine approves such request, which approval may be conditional upon the End User agreeing to pay an additional surcharge fee.

Sandvine reserves the right to not renew a Support and Maintenance Services agreement for Software that has been subject to an end-of-life announcement.

5. HARDWARE END OF LIFE

Sandvine reserves the right not to renew a Support and Maintenance Services agreement for Hardware that has been subject to an end-of-life announcement.
